

Cookie Policy for Scene That

Last Updated: 9th March 2026

Welcome to Scene That, This Cookie Policy explains how SCENE THAT LTD use cookies and similar technologies when you visit our website or use our mobile application (collectively, the "Service"). It explains what these technologies are, why we use them, and your rights to control our use of them.

1. What Are Cookies

Cookies are small data files that are placed on your computer or mobile device when you visit a website or use an app. They are widely used by online service providers to make their platforms work, or to work more efficiently, as well as to provide reporting information.

We also use similar technologies, such as "local storage" and "web beacons," which perform similar functions to cookies. Throughout this policy, we refer to all of these technologies collectively as "cookies".

2. How We Use Cookies

Scene That uses cookies for several reasons. Some cookies are required for technical reasons in order for our Service to operate, and we refer to these as "essential" or "strictly necessary" cookies. Other cookies enable us to track and target the interests of our users to enhance the experience on our platform, particularly regarding our AI-driven recommendations.

Here are the specific types of cookies we use:

- **Strictly Necessary Cookies:** These are essential for the Service to function properly. They allow you to log into your secure account, remember your session, verify your age, and ensure the basic security of the platform. Without these cookies, the Service cannot be provided.
- **Functionality Cookies:** These are used to recognise you when you return to our Service. This enables us to personalise our content for you and remember your preferences (such as your chosen language or region, or whether you prefer light or dark mode).
- **Analytical and Performance Cookies:** These allow us to recognise and count the number of visitors and see how visitors move around our Service when they are using it. This helps us to improve the way our platform works, for example, by ensuring that users are finding what they are looking for easily.
- **Targeting and Profiling Cookies:** Because Scene That relies on understanding your viewing habits and ratings to serve you better content, we use these cookies to record

your visit, the scenes you have watched, and the links you have followed. We use this information to build your user profile and power our AI recommendation engine, ensuring the clips we serve are relevant to your style.

3. Third-Party Cookies and YouTube

Because our Service utilises the YouTube Application Programming Interface (API) to display video content, third parties (specifically Google and YouTube) will also set cookies through our platform.

When you play a scene hosted by YouTube, Google may set cookies to gather analytics, remember your playback preferences, and potentially serve targeted advertising on their own platforms.

- We do not control these third-party cookies.
- Your interaction with the YouTube player is subject to Google's own policies. For more information on how Google uses cookies, please review the Google Privacy Policy (<https://policies.google.com/privacy>) and Google's Cookie Policy (<https://policies.google.com/technologies/cookies>).

4. How Can You Control Cookies

You have the right to decide whether to accept or reject non-essential cookies.

- **Cookie Consent Banner:** When you first visit Scene That, you will be presented with a cookie banner allowing you to consent to or reject certain categories of cookies (such as Analytical or Targeting cookies).
- **Browser Controls:** You can set or amend your web browser controls to accept or refuse cookies. If you choose to reject cookies, you may still use our Service, but your access to some functionality and areas of our platform (such as our personalised AI recommendations) may be severely restricted or stop working entirely. As the means by which you can refuse cookies through your web browser controls vary from browser to browser, you should visit your browser's help menu for more information.
- **Mobile Device Settings:** You can manage how your mobile device and mobile browser share certain device data with us, as well as how your mobile browser handles cookies, by adjusting the privacy and security settings on your mobile device.

5. Changes to This Cookie Policy

We may update this Cookie Policy from time to time to reflect changes in our practices or for other operational, legal, or regulatory reasons. Please revisit this Cookie Policy regularly to stay informed about our use of cookies and related technologies.

6. Contact Us

If you have any questions about our use of cookies or other technologies, please contact us at:
